

Hydraulic Single Unit

We are here with our newly developed Hydraulic SingleUnit! This powerful and efficient machine is designed to deliver excellent performance in various pre-tensioning applications.

Quality Assurance

Our newly developed Hydraulic Tensioning Unit is designed to provide high performance and reliability in pre-tensioning applications. We offer both quality and efficiency together.

Technical Specifications

- Product Name: Hydraulic Single Unit
- Product Code: IMX-HTU
- Operating Pressure: 350 bar
- Motor Power: 5.5 kW
- Motor Speed: 1500 rpm
- Tank Capacity: 130 liters
- Pump Flow Rate: 8.4 liters/min
- Supply Voltage: 380 V

ADVANTAGES

ADVANTAGES OVER OTHER MACHINES

- Performing the work of multiple units with a single unit.
- High strength and durability.
- Long lifespan with low maintenance costs.
- Easy portability and compact design.
- Minimizes your costs with low oil usage.
- Takes up less space.
- Consumes less energy.
- Provides superior precision and performance.

EASE OF USE

Thanks to its user-friendly design, it can be easily operated by the operators. Its ergonomic structure and simple control mechanism make the operations fast and seamless.

INNOMAX

HYDRAULIC SINGLE UNIT

Our Mission

Our mission is to develop products that prioritize user safety while ensuring maximum efficiency in operational processes. In this regard, our Hydraulic Tensioning Unit is redefining industry standards.

Customer Satisfaction

Our goal is to ensure permanent customer satisfaction by providing high-quality products. In this regard, we produce devices that simplify production processes and save time.

Our Vision

Our vision is to provide innovative solutions in the industry to meet our customers' needs at the highest level. With the Hydraulic Tensioning Unit, we are one step closer to achieving this goal.

With its high pressure resistance and ergonomic design, it provides maximum efficiency in your pre-tensioning applications.

Thanks to its operator-friendly design, it allows for fast and error-free application.

Our Hydraulic Tensioning Unit reduces your business costs and increases operational efficiency by performing the work of multiple machines on its own.

The Hydraulic Single Unit can be used in all work environments due to its easy portability and compact design. Its technical advantages make a difference in the industry.
